Finance Procedures

The Student Association can raise some of its own money, but most funding comes from the College Leadership Team and is approved by the College Board of Management. This money is mainly used to support the day-to-day running of the Association. Because of this, all spending is closely monitored and can be checked by auditors at any time.

Everyone who handles or spends the Association money must follow the College's finance procedures. If these procedures are not followed, disciplinary action may be taken.

Anyone spending money on behalf of the Association must also follow the College's financial and procurement rules. Not following these rules may lead to disciplinary action.

Requesting Money

All spending must be approved *before* anything is bought. Approval must come from the Student Presidents and the Learner Engagement Officer. A Purchase Order must be raised by the Learner Engagement Officer for all types of spending, including invoices and manual cheques, before any goods or services are ordered.

Annual Budgets

At the start of each year, the Student Presidents and the Learner Engagement Officer may create "block proposals." These proposals set ring-fenced budgets for specific activities.

Money can be spent from these ring-fenced budgets without submitting separate funding requests. If all money in a ring-fenced budget is used, new funding requests must be made and approved. All spending from ring-fenced budgets must still follow the College's finance procedures and be submitted to the Learner Engagement Officer. Every funding proposal must be approved by at least one President and the Learner Engagement Officer.
